

For immediate release: HOT FM now on air at Mukinbudin

The residents of Mukinbudin WA can now enjoy HOT FM radio. The shire now provides both Triple J and HOT FM. Residents and visitors can tune into HOT FM on 90.7Mhz.

The old TV transmitter site has been cleaned up and re-purposed as a dedicated radio retransmission site with a new FM antenna and combiner system installed and a new 100 watt transmitter for the Hot FM service.

New transmitters and broadcast infrastructure will provide approximately twenty Kilometre coverage for the new service.

Satellite Television and Radio Australia, the company responsible for the digital television upgrade for the Goldfield councils and numerous radio service installations, completed the Mukinbudin installation on Tuesday 29th April.

Further work will be conducted over time at the new radio retransmission site to provide the community with a reliable community resource for all to enjoy.

The Triple J radio transmitter was also relocated by STRA to the new site ensuring better security and a more suitable environment free of dust

and water ingress. Triple J remains on 89.1FM at Mukinbudin.

STRA are currently offering to install new FM radio services such as HOT FM, RED FM and SPIRIT for rural communities that don't already have these services* from just \$17,970 plus GST with a second service for just \$7,000 plus GST if installed at the same time.

For further information about these or other FM radio or TV broadcast installations please call Satellite Television and Radio Australia Pty Ltd on (07) 3103 0477 or email admin@stra.com.au

*Subject to broadcaster and ACMA approvals.
